Conference Icebreakers

A Bridge Too Far

This is a challenging interactive team building that brings your teams together in front of your eyes. The bridge created forms a visual demonstration of the teamwork of each team during the event, reflecting on how this fits into the bigger structure.

The challenge is to create a section of the bridge within certain guidelines. This event demonstrates the importance of teamwork and communication; as the success of the final bridge can not be achieved by one individual, or even one team.

Circus Skills

Based in teams, you will work together to master the traditional circus arts such as juggling, plate spinning and the Diablo. You will realise that YOU can achieve those activities previously considered beyond your capabilities. At the end of the day you will get the opportunity to perform your new found talent in an act that will leave all spectators in sheer amazement and admiration.

The Circus Skills workshop is an excellent form of team building for groups of any size. Not only do participants work together to achieve an enviable performance; each team will become united through encouragement and support for one another.

Clap Happy

A fast furious and fabulously fun energiser…perfect for a quick pick-you-up!

Each delegate finds a bright coloured pair of washing up gloves taped under their seat, the different coloured gloves relate to the different rhythms clapped, tapped and stamped, in this great motivator.

Building section upon section of simple yet effective rhythms and movements… We raise the groups energy until the big performance at the end… Leaving everyone on a high, smiles on their faces and ready for a great event ahead.

Conference Icebreakers

Final Countdown

Each team is given a 'Top Secret' flight case containing all they need to design and construct their rocket.

The Rocket uses a two-stage motor; the first stage motor launches the rocket whilst the second stage motor releases a parachute that allows the Rocket to land safely.

The Rocket, if correctly assembled; can steak over 1,000 feet in the air!

Human Shoe Laces

A fun but challenging ice breaker that is ideal for large groups who wish to work as one to complete an exercise in a short time scale.

After an initial intro from the Off Limits event manager the guests will be divided into 10 teams and they all will be tasked to tie a human knot whilst they are all connected to a length of rope.

The above is an energetic but fun exercise which will enhance communication skills of a group in an environment where quick thinking and alertness will contribute to success.

Rocket Icebreaker

An excellent event to either get a conference off to a good start or add that little extra energy mid-way through the day.

The Rocket Icebreaker event is designed to get guests participating in an event that is mentally challenging with a competitive edge.

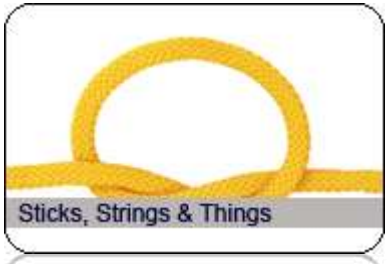
Conference Icebreakers



This event can turn a quiet unresponsive audience into a very competitive group who quickly get to know their colleagues in a very short period of time.

After the initial introduction a few short and simple exercises will be delivered to initially break the ice but also to ensure that we can create teams randomly before going into a range of challenges. These challenges will include; Human Slip Knot, Caning It, Alpha bodies and Shape Sorter.

In a blaze of colour, energy and lightning-fast reactions, our facilitator dramatically transforms your guests into a cohesive and melodic group.

Everyone has a brightly coloured tuned Boom Whacker, that when struck, produces a note.

Building towards a finale where the piece of music is performed; the group must listen, react and ensure that all the right notes/colours are played together at the right time to create the music of your company.
